Defense Science Board Combined Task Force on
Penetration and EW Sub-Group on Effectiveness Evaluation

An Executive Session of the EW Sub-Group on Effectiveness Evaluation will be held on 19 February 1969, 0900-1600 hours, Room IE801, Pentagon, Washington, D. C.

During our last two meetings, the sub-group has been briefed on current programs relating to modeling, simulation and testing of EW effectiveness evaluation. The next executive session will be devoted to the preparation of an interim report which summarizes the conclusions drawn by the sub-group.

Each of you is asked to prepare a written two or three page draft of your conclusions for this next meeting and to present a 15 minute verbal summary of these conclusions for round table discussion at this executive session. The following points should be addressed:

- a). Critique of present efforts in EW Effectiveness Evaluation (Modeling, Simulation, and Testing)
- b). Is the present data base adequate for this task?
- c). What overall capability do you feel is required and achievable?
- d). What are the major areas where additional capability is required?

I am looking forward to an interesting and productive session on February 19. Your careful attention to this subject matter is essential and appreciated.

LARRY C. HUNTER
Chairman
EW Sub-Group on
Effectiveness Evaluation

USAF review(s)
completed.
